

ENVIRONMENTAL SAFETY FACT:

51 TRILLION GALLONS OF WATER COULD BE CONTAMINATED BY LUBRICANTS EACH YEAR.

EQUAL TO THE AMOUNT OF WATER THE UNITED STATES USES IN

ENVIRONMENTAL SAFETY SOLUTIONS.

To help prevent pollution of sensitive marine environments, a new Vessel General Permit (VGP) has been introduced. Using Clarion® Lubricants can help you meet the 2013 VGP regulations. With zinc-free, ashless additives and readily biodegradable formulations, our full line of lubricants provide confident protection for your operation. And our waters.
